Projects committee
two M.G projects

The first M.G:

1. M.G No. 79236 with Germany:

A. Participants:

RC Horus Heliopolis with RC Munchen –Englishcher Garten, D1840 to supply a small village Abdalla Pasha in Qalioub with net work of drinking water.

B. Project budge:

Total budge 190,000 EGP, RC Horus participates with 10770 EGP.

C. Project description:

(1) The village without drinking water supplies and depends on getting water from the underground water contaminated with sewage water using local primitive pumps. This cause sever illness and sickness.

(2) Our project constructed and extended new network from the nearest main water source using P.V.C tubes 6 and 4 inches to the boarder of the village and used propylene tubes one inch to the boarder of each home.

(3) Now we have established 1650 meters length network instead of 1350 meters length and connected 118 homes with fresh drinking water instead of 99 homes had been planned before with the same budget.

D. Project time:

On Saturday 8 March we finished 90 % and we will finalize our project at the end of March 2014.

E. Benefits:

1. The beneficiaries of our project will increase from 2500inhabitants as planned before to 3000 inhabitants and they all appreciated what ROTARY have done to their village.
2. The holding company of water and waste water will take over the project and will consider as a part of infrastructure of Qalioub city.

F. Rotarians activities:

10 members from RC Horus were actively involved in the project and the other members helped them.

At the beginning the habitants used this primitive bump to get their drinking water. Actually they get waste water at depth 10 to 12 meters .This pump will be go away

The Digger constructs the new network (PVC tubes 6 and 4 inches)

Dear sirs ,you see now how the the drinking water comes under high pressure from one inch or two inches pvc tubes.

THE inhabitants insert their water meter and start to get clean drinking water the first time since 30 years and the children’s are very happy

Water meter in another home and the lady also very happy
