Rtn. Gordon R. McInally President 2023-24 August 2023

At the 2023 Rotary International Convention in Melbourne, I asked all Rotary members to become champions in our effort to illuminate mental health needs near and far. This includes helping one another feel more supported, advocating for mental health services, and building bridges with experts in the field to expand access to treatment.

It's an important task and a big ask. But it's also something that should feel familiar to every Rotary member — because everything we do is in the spirit of caring, giving, friendship, and compassion, and has been from the beginning of our organization.

We've grown into an amazing global network of 1.4 million interconnected community leaders — leaders who share a deep commitment to doing good in the world. But what makes Rotary powerful isn't just what we do for the communities we serve. We also support and empower each other, by creating a safe space for our members to bring their whole, authentic selves. We show each other comfort and care.

These connections are deeply meaningful. The U.S. surgeon general recently declared loneliness a public health epidemic. Dr. Vivek Murthy said, "We must prioritize building social connection the same way we have prioritized other critical public health issues such as tobacco, obesity, and substance use disorders." I am proud of what Rotary has done across generations to build those kinds of social connections — and this magazine focused on loneliness and what Rotary can do about it in its January 2023 issue.

Our worldwide community and our foundational value prioritizing Service Above Self makes Rotary a powerful global advocate for mental health. A recently published study by Ohio State University found performing acts of kindness was the only one of three mental health interventions tested that helped people feel more connected to others. Study co-author David Cregg said, "Performing acts of kindness seems to be one of the best ways to promote those connections."

This research suggests what we've known all along — that doing good helps transform not just the communities we serve, but it also transforms us. As we put a greater focus on mental health, let's not think of this effort as something new to Rotary, but rather as something we can do better and as a result have a greater impact on ourselves and the people we serve.

We are not starting this effort from scratch. The Rotary Action Group on Mental Health Initiatives has been focused on these kinds of issues for several years — and we will be looking to members of that group for leadership as we continue to build awareness.

Mental health care fits comfortably within several of our areas of focus. As of May, there are 41 global grant-supported projects with a mental health focus. Many of them have tremendous promise, and we will be highlighting them in the months ahead.

So let's work together to erase the stigma associated with emotional well-being, raise awareness of mental health needs, and improve access to preventive and interventional mental health services.

Message from R.I. Director Rtn. Anirudha Roy Choudhury

Greetings as we embark on another new chapter, a new year, full of opportunities and possibilities. RID 3232 is a District brimming with possibilities. **As we venture into the year ahead, continue to embrace Rotary's spirit of service and harness the power of collaboration.** Try to expand your horizon, think creatively, explore innovative avenues to address the pressing needs of our society.

Work towards membership growth and retention, women empowerment, environmental conservation and protection, mental health awareness and embrace DEI policy of Rotary in your actions and meetings. The Rotary Theme for 23-24 "Create Hope in The World" serves as a powerful call to action, urging us to channel our collective energy and resources towards making a brighter future. **Let us inspire others through our actions and work towards a future where HOPE prevails.**

Message from District Governor Rtn. AKS Ravi Raman

Shobhana and I are excited to travel the Rotary year with you all. As the R.I. Presidential theme goes this year, "Create Hope in The World", collective effort will work magic to reach its maximum impact and reach. Anything New will have a few hiccups in the beginning. **Mental well-being and DEI are the two main thrust areas, R.I. is asking us to focus on.** Membership retention will always be a problem for us but our joint and collaborative efforts will ease out small problems most clubs face. **On behalf of the District Team, we are here**

to support you as best as we can and, request that communication lines stay open for effective execution. Let us make this momentous year, one to remember by, and not forget to have fun along the way. We look forward to a year full of smiles and achievements.

Rotary E-Club of Chennai

As rightly quoted by “Coretta Scott King”, the greatness of a community or a club is most accurately measured by the compassionate action of its members. Rotary E-Club of Chennai is a globally diversified club with members from across India, Singapore, Muscat, Dubai, Abu Dhabi, Germany and USA. The E-Clubians are professionals with classifications from all walks of life.

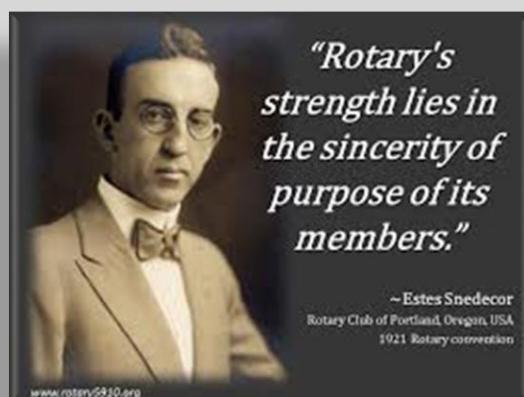

The strength of Rotary E-Club of Chennai is each individual member and the strength of each member is the club. Of the total E-Club strength, nearly 20 chartered members continue to joyfully be a part of the club. To me Rotary as a Rotarian, has taught me that it is not just about being a part of the club, but the experience and interactions with fellow Rotarians have actually unveiled many unknown potentials within myself. With unique execution pattern of our E-Club, it really fits people who have a passion to serve the needy in the society, but due to professional commitments do not have the time to attend all physical meets.

We are always on the lookout for potential and suitable people, who would fit into our E-Club culture. The membership team scrutinizes the profile of a person and we encourage them to attend few of our speaker meets, and if in Chennai they are invited to be a part of our club physical activities. Following a sense of understanding of the club and the commitment to serve, the person is inducted as a E-Club Rotarian.

We believe in the concept of every drop of water makes a mighty ocean, and so are we proud be Rotarians amongst the 1.4 million Rotarians across the globe.

Looking forward and we welcome people with a passion who dream big for the society and are ready to join hands to do more than what an individual could do. **MEMBERSHIP IS THE BACKBONE OF ROTARY INTERNATIONAL !**

Speaker: Dr. Karthik Mathivanan

In 2020 he founded Liver India and is actively involved in creating awareness about liver health across Tamil Nadu especially in rural areas. Liver India has assisted over 10000 people in undergoing screening tests for Hepatitis B and in mobilizing funds through the State Health Insurance scheme or crowdsourcing.

Dr.Karthik is focused on working towards curing advanced liver cancer by coupling transplant oncology and immunotherapy. He believes if medical science can help a person with no hope prolong life even by a day, it is a success story.

A small gesture of Rotary E-Club of Chennai, supporting Able Aura Foundation was well received on social media like facebook and Instagram. The project was published in our July2023 bulletin ECHO – Rotary Eclub of Chennai’s Ode to Rotary. Able Aura Foundation has recognised the project , and published in their handle on facebook.
