I would like, love Mrs. Heimerdinger, to thank you quite cordially. Thanking planning and execution two great BMZ water projects in Egypt which my club carried out under my leadership within the last few years for your support and your engagement. Your expertise was already very helpful to the projects to me at the proposal submission. Without your support our projects would have hardly been approved by benzo (BMZ). You always had the right feeling for the wording of the most important text passages. At different visits to Egypt I became acquainted, which is entrusted with the execution of the projects on the spot and these with often after in Egypt do this one to usual rules this with the friends. At the invoice of the first great project I experience presently, kind Mrs Heimerdinger, your thoroughness and precision. Nothing is forgotten and for every expense a detailed piece of evidence must be produced. Rotary Germany common service can rely on your work fully. You are dear Mrs Heimerdinger to reach, and always responsive any time. Once again, today, for the good cooperation I would completely like me with you personally with this bouquet of flowers thank you. But also my club, the RC Munich Land, thanks you for your support very much at planning and carrying out of the projects. I present you our presidents in the name as a gratitude for your engagement the Paul Harris Fellow. Furthermore we wish you much success and all best at your activity for RDG.
